

OUR ORIGINAL NOX SENSORS

OE MANUFACTURED

Vitesco Technologies Independent Aftermarket is a tier 1 automotive supplier manufacturing Original Equipment (OE) spare parts for the independent aftermarket for a wide range of applications including passenger cars as well as light or heavy commercial vehicles (on- and off-highway). Our experience ensures that our original products are premium quality: Vitesco Technologies was formed in September 2021 when Continental AG spun off its Powertrain division.

Our Nitrogen Oxide Sensors (NOx) help create cleaner emissions in diesel vehicles through continuous NOx monitoring during engine operation.

Facts & Benefits

- > Vitesco Technologies Original Equipment (OE) manufactured sensor: for high performance, reliability and long service life
- > Reliable monitoring for compliance with worldwide emission standards
- > Real-time high measuring accuracy and fast operational readiness
- > High quality material and robust design for longer service life
- > Quick and easy installation with OE fit and function for higher efficiency
- > Developed for 12V and 24V applications in passenger cars as well as light or heavy commercial vehicles (on- and off-highway)
